1A General Information

These financial statements are prepared solely for the purposes of consolidation by the holding company, Alkem Laboratories Ltd.

1B SIGNIFICANT ACCOUNTING POLICIES:**1.1 Basis of preparation of Financial Statements:**

The financial statements of the Company as at and for the year ended 31st March, 2017 have been prepared in accordance with Indian Accounting standards ('Ind AS') notified by the Ministry of Corporate Affairs in consultation with the National Advisory Committee on Accounting Standards, under section 133 of the Companies Act, 2013 ('Act') read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the relevant provisions of the Act.

These financial statements are the Company's first Ind AS financial statements and are covered by Ind AS 101, First-time adoption of Indian Accounting Standards. The transition to Ind AS has been carried out from the accounting principles generally accepted in India ("Indian GAAP") which is considered as the "Previous GAAP" for purposes of Ind AS 101. An explanation of how the transition to Ind AS has affected the Company's equity and its net profit is provided in **Note 2.6**.

The Company presents assets and liabilities in Balance Sheet based on current/non-current classification.

An asset is classified as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- it is due to be settled within twelve months after the reporting period
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

1.2 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

1.3 Earnings per share ('EPS')

Basic EPS is computed using the weighted average number of equity shares outstanding during the period. Diluted EPS is computed using the weighted average number of equity and dilutive equity equivalent shares outstanding during the period except where the results would be anti-dilutive.
